Contents of *Agricultural Water Management*, Volume 66

VOLUME 66 ISSUE 1 **1 APRIL 2004**

A GIS-based model to estimate the regionally distributed drought water demand
S.R. Satti and J.M. Jacobs (Gainesville, FL, USA) 1
Adaptation to climate change to enhance food security and preserve environmental quality: example for southern Sri Lanka
P. Droogers (Arnhem, The Netherlands) 15
Water resources management in Crete (Greece) including water recycling and reuse and proposed quality criteria
K.P. Tsagarakis, G.E. Dialynas and A.N. Angelakis (Iraklio, Greece) 35
The policy relevance of virtual water can be enhanced by considering comparative advantages
D. Wichelns (Fresno, CA, USA) 49
Comparative evaluation of canal seepage investigation techniques
M.M. Alam and M.N. Bhutta (Bhalwal, Pakistan) 65
Modelling the regional and farm-level economic impacts of environmental flows for regulated rivers in NSW, Australia
R.T. Jayasuriya (Orange, Australia) 77

Publisher's Acknowledgement 93

VOLUME 66 ISSUE 2 **15 APRIL 2004**

Publisher's note 95

Growth response of four turfgrass species to salinity
S.F. Alshammary (Riyadh, Saudi Arabia), Y.L. Qian and S.J. Wallner (Fort Collins, CO, USA) 97
Simulating the composition of the in situ soil solution by the model EXPRESO: application to a reclaimed marsh soil of SW Spain irrigated with saline water
F. Moreno, R. Vaz, E. Fernández-Boy and F. Cabrera (Sevilla, Spain) 113
Evaluation of the water cost effect on water resource management: Application to typical crops in a semiarid region
J.F. Ortega, J.A. de Juan and J.M. Tarjuelo (Albacete, Spain) 125
Economics of drip irrigation of olives in Turkey
B. Çetin, S. Yazgan and T. Tipi (Bursa, Turkey) 145
Simulations on direct and cyclic use of saline waters for sustaining cotton–wheat in a semi-arid area of north-west India
R. Singh (Hisar, India) 153

doi:10.1016/S0378-3774(04)00063-0

Water use efficiency of winter-sown chickpea under supplemental irrigation in a mediterranean environment
T. Oweis (Aleppo, Syria), A. Hachum (Mosul, Iraq) and M. Pala (Aleppo, Syria). 163

VOLUME 65 ISSUE 3 1 MAY 2004

Effective management of irrigation water for maize under stressed conditions
R.K. Panda, S.K. Behera and P.S. Kashyap (Kharagpur, India). 181
Comparing Penman–Monteith and Priestley–Taylor approaches as reference-evapotranspiration inputs for modeling maize water-use under Mediterranean conditions
A. Utset (Zaragoza, Spain and Valladolid, Spain), I. Farré (Wembley, Australia), A. Martínez-Cob and J. Cavero (Zaragoza, Spain) 205
Development and testing of a GIS integrated irrigation scheduling model
B.A. George (Melbourne, Australia), N.S. Raghuwanshi and R. Singh (Kharagpur, India). 221
Optimizing operational strategies of scavenger wells in lower Indus Basin of Pakistan
G. Ali, M.N. Asghar, M. Latif (Lahore, Pakistan), and Z. Hussain (Islamabad, Pakistan). 239
Adaptation of the Thornthwaite scheme for estimating daily reference evapotranspiration
A.R. Pereira (Piracicaba, Brazil) and W.O. Pruitt (Davis, CA, USA) 251
Comparative analysis of performance criteria in irrigation schemes: a case study of Gediz river basin in Turkey
M. Yercan, F. Dorsan and M.A. Ul (Bornova-Izmir, Turkey). 259
